Securing the Technicolor research and development site

- A bird's-eye view of the Technicolor R&D site in Cesson-Sévigné

[Securing the Technicolor research and development site](#) [2]

In November 2012, Technicolor established its research and development centre in Cesson-Sévigné, France.

The site includes several sensitive areas that require heightened security measures. Site protection teams from the SPIE Ouest-Centre Process Department installed a unified control system including access control, intruder prevention and video protection.
