

Site and network security

Through its Site & Network Security activity, SPIE Ouest-Centre delivers expertise in securing industrial, service sector and military sites in France and abroad.

## An integrated approach

From integration to development to **hypervisors**, SPIE Ouest-Centre provides solutions tailored to its customers' industrial sites:

- "Hypervisor"-centralised solutions for running multiple systems
- **Tailored and flexible equipment** choices
- Support for creating or overhauling a **Central Security Desk**

## A global response

- **Risk analysis**
- Engineering
- Development and commissioning
- Maintenance

## Physical and electronic solutions for site security

- **Video monitoring** (image analysis, etc.)
- **Intrusion detection**
- **Access control**

## Our technical expertise

- Multi-technical analysis for facility locations
- Production facilities optimisation (upgrades and compliance with standards)
- Support logistics (handling for air and/or sea shipping, transport)
- Production site reassembly and commissioning
- Multi-technical maintenance

## Certifications
