Press release

EDF awards an HVAC contract to SPIE Est

SPIE Est's Lorraine office has been entrusted with the installation of HVAC systems as part of a project to build a spare parts storage centre at Velaines (Meuse) for EDF's nuclear division.

This contract worth more than €2.3 million covers the following services:

- for the storage area (40,000 sq. m.): heating and air treatment, fluid distribution, dehumidifying systems, control, and building technical management systems;
- for administrative offices: under-floor heating, air conditioning and air treatment.

EDF is committed to this project which has been hatched as part of the French government's plan to boost the economy and a programme to redynamise the Meuse area.
