Press release

SPIE Deutschland System Integration wins a contract with Deutsche Bundesbank

SPIE Deutschland System Integration's Darmstadt office has obtained a contract with Germany's leading bank, Deutsche Bundesbank, for the wiring of its buildings in Frankfurt. The million euro contract covers the installation of 16,000 Kerpen Keystone connections and more than 180,000 metres of cables. The work is to be completed within one year. SPIE Deutschland System Integration gained the customer's confidence as from the design phase, and triumphed over its competitors with the quality of its tender. Contact SPIE SA
