SPIE organises the "InSPIerations" business event

Breda, 9 March 2016 - On Tuesday, 12 April 2016, SPIE, the independent European leader in multi-technical services in the areas of energy and communications, will be organising a business event in Rotterdam that focuses on current developments and trends around the world and which challenges they entail. Visitors can hear about digital transformation, urbanisation, sustainability and population aging in a table discussion with talk show host Humberto Tan and a panel of prominent guests.

The Van Nelle Factory in Rotterdam will host this sector's foremost business event: "InSPIerations" in which knowledge exchange will play a key role.

The interactive panel debate, moderated by Humberto Tan will focus on topical themes like improving the urban environment and facilities, optimising building performance, facilitating the energy transition and optimising and improving the sustainability of industrial processes. This plenary session will be followed by the "InSPIerations" business market: a trade fair-style presentation of SPIE's latest innovations and solutions. Guests can attend keynote lectures about much-discussed projects like the 'Dutch Wind Wheel'. In addition, the event offers an ideal occasion to network with colleagues from the sector.

"InSPIerations" is organised for everyone from the sector interested in the event's programme. Please register before the end of 5 April 2016 via www.spie-nl.com/inspiration2016 [1].
