Dear Sirs,

On May 7, 2015 the Ordinary and Extraordinary Shareholders’ Meeting of the Company, in its eighth resolution, granted authorization to the Board, for a twenty-six (26) month period, to (i) increase the share capital of the Company, in one or several times, up to a maximum aggregate amount of thirteen million and five hundred thousand euros (€13,500,000), by either incorporation of reserves, profits or issuance, merger, or contribution premiums, or by incorporation of any sums the incorporation of which is permitted by applicable laws and the Company’s by-laws, and (ii) consequently:

- Issue new shares of the Company,
- Increase the par value of the existing shares of the Company,
- Combine the two above-mentioned methods.

Shareholders are reminded that such delegation of powers was granted subject to the pricing of the shares of the Company in connection with their initial listing on the regulated market Euronext Paris, and that such condition precedent was satisfied on June 9, 2015.

On October 29, 2015, the Board decided to make a first use of the aforementioned delegation and to:

- increase the share capital of the Company in the amount of nine hundred and forty two thousand and one hundred and eighty-three euros and eighty-three euro cents (€942,183.83) by increasing the par value of the existing shares from approximatively €0.4637 per share to €0.47 euro per share, thereby increasing the share capital to seventy million and five hundred thousand euros (€70,500,000); and

- implement such share capital increase by incorporating issuance premiums, taken from the “share issue premiums” account which, based on the Company’s accounts as at September 30, 2015, shall therefore decrease down to €1,095,272,317.91.

Impact of the share capital increase on the situation of the shareholders and securityholders of the Company, in particular with respect to their share of equity

The aforementioned share capital increase has no impact on the situation of the shareholders and securityholders of the Company. In particular, such share capital increase by incorporation of issuance premiums has no impact on the amount of the Company’s equity.
Theoretical impact of the share capital increase on the market-value of the Company’s shares, calculated as the average of the opening prices quoted on the last twenty stock-market trading days

The aforementioned share capital increase should not have any noticeable impact on the market-value of the Company’s shares, calculated as the average of the opening prices quoted on the last twenty stock-market trading days. In particular, such share capital increase by incorporation of issuance premiums has no impact on the amount of the Company’s equity, and the increase in the par value of the ordinary shares of the Company should not have any impact on their liquidity.

* * * * *

The present supplementary report shall be made available to the shareholders at the Company’s head office within 15 days after the Board meeting, and brought to their attention during the next Shareholders’ Meeting.
